

**Fireman's Supply, Inc
Email Program Update**

**EF RECOVERY
Program**

EF Recovery was created in 2006 to provide a new funding source for Fire Departments with a dual purpose: improvement of firefighter health and safety and reduction of the environmental impact of motor vehicle accident spills.

**MAKE MONEY FOR YOUR DEPARTMENT WHILE YOU
ARE PERFORMING A COMMUNITY SERVICE.**

Protect the environment with state of the art products such as Amerizorb Throw-N-Go and ECS FM 186-2 to address vapor suppression, immediately begin mitigation for fuel spills and reduce slips, trips and falls.

We have several area departments that are using this program and would be happy to provide you with a reference.

For more information call your area sales person, or our office at 467-6729. If you are out of the Treasure Valley use our 800-727-9972 number.

Best regards,

Jerry Zeal
